ACTION TAKEN REPORT

College collects feedback regularly generally in the month of March before final examinations. For academic year 2018-19 feedback was collected from students, parents, alumni and teachers. 563 Students, 350 Parents, 07 alumni and 51 teachers participated in this online activity. The feed is collected on line by using google form and analyzed accordingly.

The students were asked 25 different questions regarding curriculum, library, teaching, evaluation, basic amenities in the college curricular, co-curricular activities and co-operation of teaching and non teaching staff.

The alumni were asked 13 different questions about their experience in the college during their time in the college.

Teachers: Both Full time and contributory teachers were asked 14 different questions regarding the syllabus, resources available, evaluation methods used and administration in the college and some physical facilities on the campus.

Parents: The parents of the ward were asked 14 questions about the college in different categories like the admission procedure used by college, infrastructure work culture co-curricular activities for the students, punctuality of teachers, discipline etc.

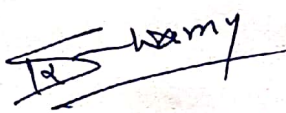

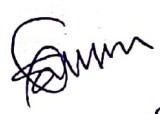

Feedback committee discussed the feedback and its analysis in its meeting. After full length discussion committee suggests the following

- 1) Nearly 934 students found the curriculum easy to understand, so committee suggested that the blooms taxonomy level of internal examination and assignment be raised to improve the understanding.
- 2) About 84 percent students found the percentage of curriculum completed in the class more than 70 percent. The committee suggests that all heads of department be asked to look in to timely completion of curriculum in the class.
- 3) The analysis shows that some teachers sometimes go to class without preparation, all heads of department be asked to look in to this matter seriously. Teaching diaries of teachers be verified randomly wit regular verification.
- 4) Small chunk of students feel un comfortable with internal evaluation and it is referred in analysis at some times unfair the teachers be asked to provide answer sheets of internal tests to students for verification and model answers be discussed in class. The grievance redressal committee for internal evaluation may look in this matter.
- 5) 10 to 15 students feel the number of computers is insufficient. To deal with this and also to increase computer literacy amongst arts and social science students. Committee suggests increasing number of computers in the laboratory. This will also increase use of ICT in teaching learning process.

- 6) Some parents are not satisfied with infrastructure available in the college. There is need to increase laboratory facilities and computer facility. The committee suggests increasing at least computer facility in the college.
- 7) The analysis of teacher's feedback suggests that the ICT facility in the college be increased. The committee suggests that though college has adequate audiovisual facilities, college lacks in recording facility. It is recommended that recording be made available in the college to encourage teachers.
- 8) The cleanliness is also an issue for classrooms, even though the human resource is inadequate teachers be encouraged to monitor the cleanliness in classrooms. The committee suggests that a teachers monitoring committee be constituted to look after the cleanliness.

The committee also resolved to send these recommendations to principal and coordinator of Internal Quality Assurance Cell (IQAC) for the discussion and further necessary action.
